

INHOPE SUMMIT

Virtual Conference
22 · 23 September 2020

Speaker Biographies

Evan Anderson, Twitter

Evan acts as Trust and Safety Manager at Twitter. He manages a team responsible for the development of policy and enforcement efforts for a range of areas to include countering child sexual exploitation. Prior to joining Twitter in 2014, Evan worked at the National Center for Missing and Exploited Children as a CyberTipline analyst.

Jacqueline Beauchere, Microsoft

After six years as Microsoft's first Chief Online Safety Officer, for the past year, Jacqueline has served as the company's Global Digital Safety Advocate. Responsible for various aspects of Microsoft's online safety strategy and engagement with external audiences, Jacqueline represents the technology industry on the international Policy Board of the WePROTECT Global Alliance; is a member of INHOPE's Advisory Board; and represents Microsoft as part of the Global Internet Forum to Counter Terrorism (GIFCT).

Cathal Delaney, Europol

Cathal leads the AP Twins countering online child exploitation team within the European Cyber Crime Centre at Europol. He represents Europol in EMPACT Cyber CSE, on the NCMEC Board of Management Law Enforcement Committee, at the Board of Management of the Virtual Global Taskforce and is Chair of the European Financial Coalition. He has a long experience in this area of law enforcement and is fully committed to making online environments safer for children.

Michelle DeLaune, NCMEC

Michelle is the Senior Vice President, Chief Operating Officer at the National Center for Missing & Exploited Children which serves as the U.S. resource center for issues pertaining to missing and exploited children. NCMEC's CyberTipline has received more than 75 million reports of child sexual exploitation and is proud to be a founding member of INHOPE.

Kay Firth-Butterfield, World Economic Forum

Kay is Head of AI and Machine Learning at the World Economic Forum and an Associate tenant at Doughty Street Chambers, London. She had a career as a human rights Barrister prior to her career in AI governance. She was involved in shaping the Human Trafficking laws of Texas and sat on the Board of a non-profit which rescued victims of human trafficking and assisted them in obtaining “T” visas in the USA. She is the author of Human Rights and Human Trafficking, a book she used when teaching these subjects as a Professor.

Jos Flury, ZiuZ

Jos joined ZiuZ early 2013 as Executive Vice President responsible for the Forensic business unit. He collaborates with stakeholders fighting CSAM and represents ZiuZ at INTERPOL, Europol, VGT and WeProtect meetings. He manages large-scale projects and develops advanced systems for LEAs and NGOs, heading the development of the ICCAM and ReportBox for INHOPE since 2014 and the EC funded AviaTor project. Jos has a Master degree in the Development and Application of Information Systems and a Bachelor degree in Business Administration and Management Science.

Mats Granryd, GSMA

Mats is Director General of the GSMA and a Member of its Board. In this role, he leads the GSMA in supporting its global membership through a range of industry programmes, advocacy initiatives and industry-convening events. Mats led the mobile industry in becoming the first sector to broadly commit to the United Nations Sustainable Development Goals in 2016. He is now spearheading initiatives to amplify and accelerate the mobile industry’s impact on all 17 of the SDGs, across both developed and developing markets.

Denton Howard, INHOPE

Denton is the Executive Director at INHOPE. He has worked with the INHOPE network since 2005 in all aspects of hotline operations including network development, technology development, and outreach and training. By his own confession, Denton is a hotline evangelist with a mission to combat online Child Sexual Abuse. He has a BA in Business & Marketing from the University of South Wales, and a Postgrad in Computer Science from the National University of Ireland, Maynooth.

David Miles, Facebook

David is Head of Safety at Facebook for Europe, Middle East, and Africa. With more than twenty-year's experience, in the technology, regulatory and charitable sector, he has held executive management positions at IBM, the British Board of Film Classification (BBFC) and Family Online Safety Institute (FOSI). David is a former member of UNICEF's Global Fund to End Violence against Children expert roster and on Facebook's behalf, actively participates in a number of global initiatives including the Child Dignity Alliance and WePROTECT Global Alliance.

David Hunter, Crisp

David is VP Sales for Crisp. He has over 12 years of experience within large scale consulting, OSINT and online harms. He specialises in online security threats, child endangerment investigations and emerging online harms. Prior to Sales, David was responsible for the creation of international threat research teams, supplying services to most major online social media platforms globally.

Charlotte van Lanschot, INHOPE

An innovative and strategic brand marketer, Charlotte started her career with two years media production for B2C campaigns where she found she had a strong passion for brand management. With a Master's in International Marketing, Charlotte has spent six years focused on both direct and digital marketing communications, working primarily for International B2B organisations. In 2019, she moved to Amsterdam and joined the team at INHOPE as Brand and Communications Manager.

Almudena Lara, Google

Almudena is Google's global lead on child safety policy. She joined Google from the National Society for the Prevention of Cruelty to Children, the UK's largest child protection charity. There, as head of Policy and Public Affairs, she led the work to influence the debate on online safety and wider child protection issues such as the prevention of Child Sexual abuse and access to mental health and criminal justice for victims of abuse. Formerly, she led major programmes for improving outcomes for children at the UK Department for Education and worked at the Prime Minister's Strategy Unit, advising on issues from welfare reform to social investment and social action. Before entering the Civil Service, Almudena worked as an economic consultant at Frontier Economics.

Kalina Zografka, INHOPE

Kalina joined INHOPE in May 2020 as a Technical Product Manager. Before this, she worked as a consultant for online video streaming and online commerce teams and as the first PM at a software startup. Along with most product managers, she has far too many registered domains for side projects and a soft side for hackathons and open source. She moderates <https://thebooksbywomen.com/> and organizes the Product Hunt Meetup for product managers in Amsterdam in the non-corona world.

Lindsey Olson, NCMEC

Lindsey is the Executive Director of the Exploited Children Division at the National Center for Missing & Exploited Children. She helps to oversee the CyberTipline, Child Victim Identification Program and Survivor Services; three programs aimed at combatting child sexual exploitation and providing resources to the public, survivors, Industry and law enforcement. Prior to her current role, Lindsey held a variety of positions within the Division.

Lynette Owens, TrendMicro

Lynette is the Founder and Global Director of Trend Micro's Internet Safety for Kids and Families program which has helped educate over 2.5 million students, parents and teachers in 20 countries. She has built a force of hundreds of volunteers and a network of collaborations with NGOs, technology companies, schools and law enforcement to make online safety, digital citizenship, and media literacy education a priority for every child. Lynette is a board member of the National Association of Media Literacy Education, and serves on the advisory boards of INHOPE and U.S. Safer Internet Day.

Michael Sheath, Lucy Faithfull Foundation

After working for ten years as a Probation Officer in the UK, Michael joined the Lucy Faithfull Foundation in 1997. He has a long-standing interest in working with men who view CSEM, that goes back to 1990, when he assessed a client who had imported a VHS video from the Netherlands. Since joining the Foundation, Michael has been interested in the prevention of sexual crime, and has a particular interest in projects that deter men on the cusp of viewing CSEM, and how they might be diverted into treatment programmes.
